01 / METAL SEATING

All-metal seating

Tubular frames and slatted metal seats in side chair and armchair forms.

Two-slat stackable chair

Powder-coated metal / Sand tone

Three-slat metal armchair

Powder-coated metal / Olive tone

Three-slat metal chair

Powder-coated metal / Olive tone

Three-slat metal chair

Powder-coated metal / Brick-red tone

02 / GALVANISED & COLOUR

Zinc & colour

The natural light-grey zinc finish pairs with brick red, sage green and yellow slats.

Three-slat chair

Galvanised frame / Brick-red slats

Four-slat chair

Galvanised frame / Sage-green slats

Four-slat chair

Galvanised frame / Yellow slats

03 / WOOD SIDE CHAIRS

Wood side chairs

Three profiles pair wood slats with rounded metal frames.

Beech wood and African teak wood

Round-frame chair

Galvanised frame / Wood slats

Vertical-slat chair

Powder-coated frame / Wood slats

Sled-base chair

Powder-coated frame / Wood slats

04 / ROUND-FRAME ARMCHAIRS

Round-frame armchairs

Rounded armrests frame vertical or horizontal wood slats.

Beech wood and African teak wood

Vertical-slat armchair

Galvanised frame / Wood slats

Vertical-slat armchair

Powder-coated frame / Wood slats

Armchair with wood arm caps

Galvanised frame / Three wood back slats

Horizontal-slat armchair

Powder-coated frame / Wood slats

05 / CONTOURED WOOD SEATING

Contoured seating

Curved seats, open backs and tubular frames define these wood designs.

Beech wood and African teak wood

Fan-back armchair

Powder-coated frame / Wood arm caps

Loop-arm chair

Powder-coated frame / Two wood back slats

Two-slat chair

Powder-coated frame / Contoured seat

06 / SQUARE-FRAME SEATING

Square-frame seating

Straight metal profiles frame slatted wood seats, with wood arm caps on the armchairs.

Beech wood and African teak wood

Four-slat square-frame armchair

Galvanised frame / Wood arm caps

Three-slat square-frame armchair

Powder-coated frame / Wood arm caps

Square-frame chair

Powder-coated frame / Wood slats

07 / METAL FINISHES

Two metal finishes

The treatment follows the specified finish of each metal component.

LIGHT-GREY ZINC

Hot-dip galvanised

Hot-dip galvanising gives the exposed metal its characteristic light-grey zinc finish.

COLOURED METAL

Powder-coated

An electrostatically applied primer is followed by an electrostatically applied powder topcoat.

SPECIFY BY COMPONENT

When a design combines finishes, specify the frame and slats separately. Confirm the final colour and texture with a physical finish sample.

08 / WOOD FINISHES

Wood tones

Five finishes bring out the grain, from pale Natural to rich HTM.

Beech wood and African teak wood

Natural

A light finish that shows the grain.

Light Walnut

A soft, warm walnut tone.

Walnut

A classic mid-brown tone.

HTM

A deep, warm brown.

Light HTM

A lighter amber-brown finish.

WOOD GRAIN

Grain and tone vary from piece to piece. View a finished wood sample when selecting a colour.

09 / POWDER-COAT INSPIRATION

Metal colour guide

Explore a selection of tones for coloured metal components.

Cotton White

Clay Grey

Nutmeg

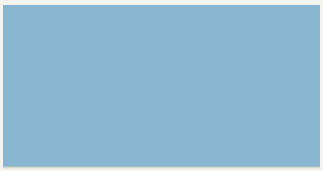

Tonka

Anthracite

Liquorice

Deep Blue

Acapulco Blue

Maya Blue

Cedar Green

Pesto

Rosemary

Cactus

Willow Green

Ice Mint

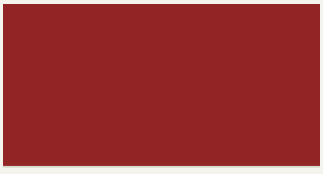

Frosted Lemon

Honey

Gingerbread

Candied Orange

Red Ochre

Chili

Black Cherry

COLOUR SAMPLES

Confirm finish availability and approve a physical sample before ordering.

Digital swatches are indicative. See page 12 for selected RAL references.

10 / ARCHIVED COLOUR DATA

RAL references

Historical colour references from a 2019-2020 technical chart for selected metal tones.

COLOUR NAME	RAL SYSTEM	RAL CODE
